

AGILAN V MU

Sree Iyappa Mat. Hr. Sec. School | agiagilan2007@gmail.com | linkedin.com/in/agilan-v-mu | github.com/agiagilan

SUMMARY

School student with 5 completed certifications in Python and data analytics, including a 12-week NPTEL program from IIT Roorkee (63% score, 29/25 on proctored assignment). Built 2 data analytics projects using NumPy, Pandas, and Matplotlib. Coordinated a machine learning problem-solving event for 1 college-level competition. Maintaining a CGPA of 8.5/10.

TECHNICAL SKILLS

Programming Languages: Python, HTML, CSS, Scratch

Data & ML Libraries: NumPy, Pandas, Matplotlib, NLTK, WordCloud, Scikit-learn (foundational)

Tools & Platforms: VS Code, Jupyter Notebook, Google Colab, Git, GitHub

Core Domains: Data Analytics, Exploratory Data Analysis, Machine Learning Fundamentals, Algorithm Design, Object-Oriented Programming

CERTIFICATIONS

Data Analytics with Python — NPTEL, IIT Roorkee (Swayam)

Jan – Apr 2026

Consolidated score: 63% | Assignment score: 29/25 (proctored exam)

Python Foundation Certification — Infosys Springboard

Mar 2026

Covered Python syntax, data types, operators, and control flow.

Fundamentals of Python Programming, Parts 1 & 2 — Infosys Springboard

Mar 2026

Covered functions, string handling, lists, dictionaries, and modular program design.

Basics of Python — Infosys Springboard

Mar 2026

Covered introductory programming logic, loops, and conditional statements.

PROJECTS

Data Analytics with Python — NPTEL Project (IIT Roorkee)

Jan – Apr 2026

- Completed a data analysis project across a 12-week IIT Roorkee NPTEL course on the Swayam platform, scoring 63% overall and 29/25 on the proctored assignment.
- Applied data wrangling, exploratory data analysis, and visualization to 3+ public datasets using NumPy, Pandas, and Matplotlib.
- Cleaned datasets by handling missing values and inconsistent entries prior to analysis.
- Generated statistical summaries and 5+ visual reports to identify trends across cleaned datasets.

Python OOP & Algorithm Programs — Infosys Springboard

Mar 2026

- Wrote Python programs across 4 certification modules, covering object-oriented programming, file handling, recursion, and algorithms.
- Designed classes and functions to organize logic into reusable components across each module.
- Completed all 4 Infosys Springboard modules within a single month, earning 4 separate certifications.

ACHIEVEMENTS

- Coordinated 1 machine learning algorithm event, XENZO Pattern Break, at Jeppiaar Engineering College (CSE Block), managing on-ground logistics and participant support.
- Scored 29/25 on the NPTEL proctored exam assignment (IIT Roorkee) and 63% consolidated overall.
- Earned 5 certifications from Infosys Springboard and NPTEL within 12 months.
- Presented at 2+ school-level science and technology exhibitions.

EDUCATION

Sree Iyappa Matriculation Higher Secondary School

2020 – Present

CGPA: 8.5 | Tamil Nadu, India

Relevant Coursework: Mathematics, Computer Science, Statistics
